Finance Docket 34747

5-9-06

Dear Ms. Johnson-Ball,

I am requesting your assistance in denying the Waste Transfer application  
For the Olin Site in Wilmington Ma.

This is a highly populated area with houses in close proximity to the Olin  
Site.

There is already a cancer problem in Woburn Ma. which borders this area.  
It is understood that these transfer sites are needed but should be located in a  
remote area without people who are in direct contact.

Waste is a big business .They need to find more appropriate areas  
to transfer their waste.

Sincerely,  
Robert LeBlanc   
23 Marion St. Ext.
